R&D backed by Cute Brains Pvt. Ltd. · Incubated at IIT Kanpur

APPLIED AI

The engineering behind modern AI — made cinematic, made usable.

Cinematic explainers, hands-on education, and production-grade builds — for media integrity, fintech and brand perception.

WHAT WE DO

Three ways we work

Content & Media

Cinematic AI/ML explainers, co-branded series, and platform-native short-form.

Live Sessions & Education

Hands-on workshops, guest talks, and support for teams and programs.

Applied Engineering

Backend, software and intelligent systems, and AI automation — built for real deployments.

OUR PRODUCTS

The line-up

HotLap

AI fitness & performance tracker

CodeSage

AI coding & research assistant

Veritas

Fake-news detector & analyzer

DeepShield

Deepfake detection & image analysis

FinCore

AI fintech platform

FormForge

3D + 2D AI design studio

WHY BLACK MAMBA

- Technical depth — real AI/ML engineering, not surface-level content.
- Credible backing — R&D via Cute Brains Pvt. Ltd., incubated at IIT Kanpur.
- Focus — applied and safety-critical systems, including aerospace.

HOW WE WORK

1 • Scope

One-page brief, timeline, fixed quote.

2 • Build

Co-developed or delivered end-to-end.

3 • Ship

Production-ready — plus shareable content.
